A Possible Marburg-RiVax Final Solution

By Kieran Morrissey

September 22, 2021

Click here to listen

While it would now appear from Mainstream Media's propaganda and the relaxation of some of the draconian restrictions on freedom, that the war on the COVID pandemic war is being won, however I believe that this is a ruse, reinforcement part of a larger PSYCOPS to complete an ongoing Eugenics agenda. Features of the COVID-19 pandemic are very worrying as follows: –

- COVID-19 disease has now been overwhelmingly proven to be just another treatable cold / Influenza which was medically mis-managed by denying early treatment which caused premature deaths in very elderly and people with underlying health conditions, this gave the misconception that there were excess deaths occurring and created mass hysteria.
- Mainstream Media coverage of a possible Wuhan Lab virus leak heightened the fear that a perceived sudden increase in deaths could have been the result of a deadly bioweapon escape and caused further panic to develop a vaccine to stop the spread of COVID, it was stated that this would take at least 10 years further raising public fears.
- The use of the now debunked real-time PCR test to diagnose COVID produced large numbers of positive results, dubbed "cases" without any symptoms, i.e. asymptomatic infections which is known not to exist, and this further terrorised the population. We now know that at least 97% of those positive results were false due the excessive cycle thresholds used in testing labs. Real-time PCR was developed as a research tool and is considered not suitable for diagnostic

purposes.

- New COVID mRNA and Viral Vector gene therapy technology "vaccine" injections were hastily developed, These injections were administered in a frenzy, in a mass global unlicenced experiment, without informed consent, causing many adverse reactions including symptoms similar to haemorrhagic fever i.e. bleeding and clots, The clots and bleeding have been found to be caused by the spike proteins generated by the body in response to the injections, and this is compounded by an undisclosed ingredient, Graphene Oxide, in the injections which is also known to cause clots and bleeding.
- The first and second doses of the COVID injections have now weakened the overall health of the population as can be seen by the current situation in hospitals which are well above capacity during the summer months with patients suffering adverse reactions from the injections, many patients have symptoms similar to haemorrhagic fever.
- The planned COVID booster injections claimed to be necessary due to waning immunity of the initial vaccinations, plus proposed injection of children, will undoubtably cause more severe haemorrhagic fever like symptoms and also be more widespread.

During my research into the false claims of excess deaths caused by COVID-19 and the pseudo-sciences which supports it, I have stumbled over some very worrying developments which I will summarise due to the urgency I feel to highlight them to the public as follows: –

- Bill Gates **GAVI** published an article on 22-Apr-2021 titled "The next pandemic: Marburg?". There have been numerous Mainstream Media articles highlighting an upcoming threat Marburg and referencing the WHO in recent months.
- **Marburg Virus** is a relatively rare haemorrhagic fever which was first described in 1967, there have only been a total of 376 related deaths, and only 16 deaths since 2005.
- Primerdesign developed a one-step Real-Time PCR test **genesig®** in 2018 for Marburg haemorrhagic fever. Why would they develop a test in 2018 for an illness which has not had a major outbreak since 2005?
- Soligenix, are currently rushing to trial a ricin-rich vaccine **RiVax®** for Marburg haemorrhagic fever. RiVax has Fast Track designation for the prevention of ricin intoxication by the US FDA. Approval of ricin toxin vaccine will utilize the FDA **Animal Rule** to eliminate the phase 1, 2 & 3 trials. Why such a rush now, to trial a vaccine for which there has only been a total of 376 deaths since 1967 and only 16 deaths since 2005? The main component of the Rivax vaccine is Ricin is a lectin and a highly potent toxin produced in the seeds of the castor oil plant.
- Soligenix **shareholders** include BlacRrock Fund Advisors, Goldman Sachs & Co.

LLC, etc.

- **Ricin** is a lectin and a highly potent toxin produced in the seeds of the castor oil plant. Ricin is very toxic if inhaled, injected, or ingested. It acts as a toxin by inhibiting protein synthesis. It prevents cells from assembling various amino acids into proteins according to the messages it receives from messenger RNA in a process conducted by the cell's ribosome (the protein-making machinery) – that is, the most basic level of cell metabolism, essential to all living cells and thus to life itself.
- A paper tilled **Asymptomatic Infection of Marburg Virus** was published by the NIH in January 2021.

The fabrication of the COVID-19 pandemic and its apparent failure leads me to believe that there is a second phase or final solution at hand to catch the public while they are off-guard. Haemorrhagic fever symptoms can be easily increased and made more visible by forcing COVID booster injections on vulnerable, COVID injection injured patients, who are now prisoners in hospitals and nursing homes, plus injecting children. The haemorrhagic fever symptoms would appear as a huge Marburg pandemic and could be confirmed by the new Marburg PCR test causing mass hysteria like the world has never seen. RiVax could be quickly deployed using the existing COVID injection infrastructure and the public would be easily convinced to take it using PSYCOPS on Mainstream Media. The toxic ricin in the RiVax would kill billions of people very quickly and effectively before they realised what was happening as the deaths would be attributed to Marburg haemorrhagic fever based on the symptoms. People who refused the RiVax could be labelled as asymptomatic spreaders and placed in camps like they are doing in Australia claimed to be a COVID protection measure.

If you read my previous two COVID articles you will have seen that I began this journey in early 2020 as a vaccine hesitant person. As a result of my recent study of Virology and Immunology in an attempt to understand the SARS-CoV-2 virus, my previously held beliefs in the theories being peddled by official science and medicine has been completely upended.

I now understand that Louis Pasture fabricated his **Germ Theory of Disease** in the 1850's stating that invisible microorganisms known as pathogens or "germs" lead to disease. Pastures ideas on Viruses were concocted upon similar theories going back to Ancient Greece and Rome, more like a developing religion or cult rather than real scientific discovery.

I now believe that the theory developed by **Antoine Bechamp** (Pasteur bitter rival) **Terrain Theory** which states that microorganisms (germs) feed upon the poisonous material which they find in the sick organism and prepare it for excretion, much more

material which they find in the sick organism and prepare it for excretion, much more similar to the natural immune response which we know to be true. However, Terrain Theory has been actively blocked due to a bias for the Germ Theory by Big Pharma due to its immense profitability.

The practice of Variolation dated back to the 16th century in China and is the precursor of the first **Vaccine** invented for smallpox in 1796 by English physician Edward Jenner. I have discovered that the widespread use of vaccines has killed far more people than they have saved.

A bookkeeper, **John D. Rockefeller** who made his fortune in the oil business was the first philanthropist and his foundations pioneered developments in medical research. **The Rockefeller Institute for Medical Research** founded in 1901, was in the forefront of research in virology and principal investigator Louis O. Kunkel had researched the biology and pathology of the mosaic virus diseases. Beginning in 1930, the Rockefeller Foundation provided financial support to the Kaiser Wilhelm Institute of Anthropology, Human Heredity, and Eugenics, which later inspired and conducted eugenics experiments in the Third Reich. **The Rockefeller empire** in tandem with Chase Manhattan Bank (now JP Morgan Chase), owns over half of the pharmaceutical interests in the United States today. No alternative approach to the Germ Theory in virology, immunology or medicine including the increasing use of vaccines, has been possible due to the indoctrination of the sciences by the most powerful and wealthy industry in the world. Banking and Big Pharma who now control Mainstream Media and all medical and scientific institutions.

Please do your own research, quickly, use your critical thinking and let us unite to stop this madness. I believe the Marburg-RiVax final solution could be deployed suddenly while we are relaxing after the worst of COVID and distracted by the now daily

revelations on Mainstream Media regarding the Government fraud and public health mismanagement which created the COVID emergency.

Not only could haemorrhagic fever symptoms be caused by the currently deployed COVID gene therapy injections but health departments are frantically pushing the HPV vaccine for girls and boys, this vaccine and even the MMR vaccine could be deliberately contaminated with nanoparticles of Graphene Oxide or other adjuncts which cause clots and bleeds, the haemorrhagic fever symptoms of Marburg.

We must stop all vaccinations immediately and destroy all stockpiles of vaccines and the pharmaceutical manufacturing plants which make the.
